

BBT Education — Project Intelligence File

Drop this file in your project root. Claude Code reads it automatically at session start.

What This Project Is

bbt.edu.pk — static HTML/CSS/JS website for Big Binary Tech's education arm in Lahore, Pakistan. No framework, no build step. Five pages: `index.html`, `courses.html`, `curriculum.html`, `about.html`, `franchise.html`, plus `bbt.css` and `enroll.html`.

Design System (do not deviate)

Token	Value
--navy-dark	#0d0d2e — page background
--card	#111132 — card background
--border	rgba(255,255,255,.07)
--amber	#f5a623 — accent / highlight
--white	#f0f0ff
--muted	#8888aa
--faint	#55556a
--mono	'DM Mono', monospace
Fonts	Barlow + Barlow Condensed + DM Mono (Google Fonts)

Dark/light theme toggle via `data-theme` on `<html>`, persisted in `localStorage('bbt-theme')`. Default is `dark`.

The 4-Stage Pipeline (brand — keep intact everywhere)

└─ Trainee → Internee → Shadow → Expert ─┘

- **Trainee**: takes the course (8–16 weeks depending on track). Has 5 internal sub-stages — see below.
- **Internee**: stipended real client work inside BBT's software house (6–10 weeks)
- **Shadow**: mentored contribution alongside a senior Expert (3–6 months)
- **Expert**: absorbed by BBT or placed at partner company

The 4-stage pipeline branding stays. The 5 sub-stages are internal subdivisions of "Trainee" — not a separate pipeline.

Universal 8-Stage Programme Structure (applies to every track)

Every track card and curriculum section must show this structure:

#	Stage	Notes
1	Subject Curriculum	Technical content — track-specific weeks
2	Communication	Business English, technical writing, code/design review presentations
3	HR Grooming	LinkedIn build, CV polish, personality, mock interviews
4	Practical Vetting	Timed, challenge-based, expert-reviewed. Hard gate — must pass to proceed. Passing a mock certification exam (scored at or above real exam threshold) also satisfies this gate — and makes Stage 5 payment optional.
5	Exam Prep	Student picks one cert from the track's approved list. BBT provides mock exams + study materials. If the student already passed a mock exam in Stage 4, they may skip paying for the real vendor exam. Students who want the official credential on their CV pay and sit the real exam here.
6	Internship	Stipended real client work inside BBT's software house
7	Shadow	Mentored contribution alongside a senior Expert
8	Expert	Absorbed by BBT or placed at partner company

Mock exam skip rule (use this exact phrasing in UI):

"Mock exam pass = proceed to Internship. Pay for the real exam only if you want the official credential on your CV."

Critical Cert Name Corrections (2026)

Always use these names. Never use the "Old" column.

Old Reference	Correct 2026 Name	Notes
HTB CBBH	HTB CWES	Renamed October 2025
Cisco CyberOps Associate	Cisco CCNA Cybersecurity	Renamed February 2026
Cisco DevNet Associate	Cisco CCNA Automation	Renamed February 2026
AWS ML Specialty MLS-C01	AWS ML Engineer Associate MLA-C01	MLS-C01 retired March 2026
Azure AZ-204	Azure AI Developer AI-200	AZ-204 retires July 31 2026
Azure AI-102	Azure AI-103	Transitioning 2026
Azure AZ-500	Azure SC-500	AZ-500 retires August 31 2026

All 8 Tracks — Canonical Definitions

Track 01 · Generative AI + Agentic AI

- **Duration:** 14 weeks · Flagship

- **Key tools added (2026):** LangGraph (22.1% of agentic listings), LangSmith (observability), MCP (Model Context Protocol), Arize Phoenix
 - **Full tool list:** Python 3.12, OpenAI API, Anthropic API, LangChain, LlamaIndex, Pinecone, FAISS, LangGraph, AutoGen, CrewAI, LangSmith, MCP, HuggingFace, PEFT, LoRA, W&B, FastAPI, Docker, MLflow, Arize Phoenix, AWS Lambda
 - **Stage 5 exam options:**
 - AWS AI Practitioner — AIF-C01 (\$100) ← cheapest, good mock-only skip
 - AWS ML Engineer Associate — MLA-C01 (\$150) - AWS GenAI Developer Professional — AIP-C01 (\$300, 2026 beta)
 - Databricks GenAI Engineer Associate (\$200) — best standalone LLMOps cert; covers RAG, MLflow, Unity Catalog - DeepLearning.AI LLMOps Specialization (Coursera — portfolio signal only)
-

Track 02 · Cloud + MLOps

- **Duration:** 12 weeks · Advanced Add-On
 - **Variant tabs:** AWS Path / Azure Path (same card, tab selector)
 - **Shared weeks 1–8:** Docker, Kubernetes/AKS, CI/CD (GitHub Actions / Azure DevOps), ML Pipeline (MLflow + Kubeflow/Azure ML), Monitoring (Prometheus, Grafana), LLMOps (LangSmith, Arize Phoenix, prompt versioning, per-call cost tracking)
 - **AWS weeks 9–12:** SageMaker Pipelines, AWS Glue, CloudWatch, Backstage IDP, ArgoCD
 - **Azure weeks 9–12:** Azure ML Studio, Azure OpenAI Service, Data Factory, Backstage IDP, ArgoCD
 - **AWS Stage 5 exams:** SAA-C03 (\$150), DOP-C02 (\$300), MLA-C01 (\$150)
 - **Azure Stage 5 exams:** AZ-104 (\$165), AZ-400 (\$165), DP-100 (\$165), AI-200 (\$165 — replaces retiring AZ-204)
-

Track 03 · Odoo ERP Development

- **Duration:** 12 weeks · Niche Specialist
 - **Added (2026):** Odoo AI module configuration (v18/v19, weeks 9–10), Odoo.sh deployment (capstone weeks 11–12)
 - **Full tool list:** Python ORM, QWeb, Owl JS, Custom Widgets, XML-RPC, JSON-RPC, Webhooks, REST APIs, Odoo AI Module, Odoo.sh
 - **Stage 5 exam options:**
 - Odoo Functional Certification v18 (\$250 — official from odoo.com)
 - Odoo Technical Certification (developer-focused, Odoo Learning Platform)
-

Track 04 · AI-Integrated Full Stack

- **Duration:** 16 weeks · Industry-Aligned
 - **Updated stack:** Next.js 15 (was 14), shadcn/ui (dominant component library), Supabase (Postgres-as-a-service replacing generic PostgreSQL), pgvector (AI-ready data), Vercel AI SDK (standard for streaming in React apps), WebSockets for streaming
 - **Full tool list:** HTML5, CSS3, Tailwind CSS, ES6+, TypeScript, React, Next.js 15, shadcn/ui, App Router, Server Components, Node.js, Supabase, Prisma ORM, pgvector, JWT, OAuth, Vercel AI SDK, OpenAI API, WebSockets, LangChain, Docker, GitHub Actions, Vercel, AWS EC2
 - **Stage 5 exam options:**
 - AWS Developer Associate — DVA-C02 (\$150)
 - Azure AI Developer — AI-200 (\$165, replaces retiring AZ-204) - AWS AI Practitioner — AIF-C01 (\$100)
-

Track 05 · Cybersecurity

- **Duration:** 14 weeks · HTB + Cisco + CompTIA Aligned
- **Variant tabs:** Offensive Path / Defensive/SOC Path (same card, tab selector)
- **Shared weeks 1–7:** Networking fundamentals, Linux CLI, Kali Linux, Metasploit, Burp Suite, OWASP Top 10, cloud security, Zero Trust
- **Offensive weeks 8–11 (NEW):** Active Directory attacks — BloodHound, Mimikatz, Impacket, Kerberoasting, Pass-the-Hash, lateral movement (required in >60% of pentest job postings). Advanced web exploitation, bug bounty methodology, HTB Pro Labs.
- **Defensive weeks 8–11 (NEW):** SIEM — Splunk, Microsoft Sentinel. MITRE ATT&CK framework mapping (required for SOC roles). EDR tools — CrowdStrike, SentinelOne. Threat hunting methodology.
- **Week 12 (both paths):** AI Red Team / AI Security — prompt injection, LLM threat modelling, jailbreaking. Aligned to HTB COAE.
- **Offensive Stage 5 exams:**

- HTB CJCA — Certified Junior Cybersecurity Associate (~\$105, entry-level, recommended for beginners)

- HTB CPTS — Certified Penetration Testing Specialist (~\$210, 10-day practical) - HTB CWES — Certified Web Exploitation Specialist (~\$210, formerly CBBH — renamed Oct 2025) - CompTIA PenTest+ PT0-003 (\$392) - HTB COAE — Certified AI & ML Security Expert (co-developed with Google, TBA pricing) - OSCP / PEN-200 (~\$1,649 — positioned as "next step after BBT", not a BBT exam)

- **Defensive Stage 5 exams:**

- HTB CJCA (~\$105, entry-level)

- HTB CDSA — Certified Defensive Security Analyst (~\$210) - Cisco CCNA Cybersecurity (formerly CyberOps Associate — ~\$330, ~\$140 with BBT voucher) - CompTIA Security+ SY0-701 (\$392) - CompTIA CySA+ CS0-003 (\$392)

Track 06 · UI/UX + Brand Design

- **Duration:** 11 weeks (was 10 — added WCAG week)
- **Added (2026):** WCAG 2.2 accessibility week, Webflow (design-to-code), specialisation framing (UX Research, Design Systems, AI UX). Generalist UX is the most commoditised segment — specialists land senior roles faster.
- **Full tool list:** Figma, Auto-Layout, Components, Prototyping, WCAG 2.2, Webflow, Design Tokens, Storybook, Midjourney, Adobe Firefly, Framer AI
- **Stage 5 exam options:**

- Google UX Design Certificate (Coursera — widely cited in job applications)

- Figma Professional Certification (newer, growing recognition) - Interaction Design Foundation — UX Research or Advanced UX Design (membership)

Track 07 · AI-Powered Marketing + Sales

- **Duration:** 8 weeks · Shortest Track
- **Added (2026):** Apollo.io (AI prospecting), Clay (AI personalised outbound), n8n/Make.com (AI agent automation), Salesforce + Einstein AI (enterprise CRM), Gong.io (AI sales intelligence)
- **Full tool list:** SEO, Funnels, Analytics, ChatGPT, Midjourney, Canva AI, n8n, Meta Ads Manager, Google Ads, HubSpot, Apollo.io, Clay, Gong.io, LinkedIn Sales Navigator, Salesforce, Salesforce Einstein AI, SPIN Selling, Shopify
- **Stage 5 exam options:**

- Google Digital Marketing Certificate (Coursera — widely recognised)

- HubSpot Academy — Marketing Hub + Sales Hub (free — highly cited) - Meta Blueprint — Meta Certified Media Buying Professional (\$150) - Google Ads Skillshop — Search, Video, Display (free) - Salesforce Certified Marketing Associate (\$200)

Track 08 · Networking + Infrastructure (NEW — April 2026)

- **Duration:** 12 weeks · Cisco NetAcademy Affiliated · Foundation-to-Professional
- **Career Outcome:** Network Engineer / Infrastructure Specialist at BBT or telecom/enterprise clients
- **Week 1–3:** Networking Foundations — TCP/IP, OSI, IPv4/IPv6, subnetting, VLANs, STP, Cisco IOS (CCNA 1–2)
- **Week 4–5:** Enterprise Networking + WAN — OSPF, BGP, SD-WAN, MPLS, EtherChannel, Packet Tracer labs (CCNA 3)
- **Week 6–7:** Network Security — ASA/Firepower firewalls, IPS/IDS, AAA (RADIUS/TACACS+), IPsec VPN, SSL VPN, Zero Trust, ACLs
- **Week 8–9:** Cisco CCNA Cybersecurity — threat detection, SOC fundamentals, cloud network security, cryptography (formerly CyberOps Associate — renamed Feb 2026)
- **Week 10–11:** Network Automation + Cloud Networking — Python (Netmiko, NAPALM), NETCONF/RESTCONF, Ansible, AWS VPC, Azure VNet, Cisco CCNA Automation (formerly DevNet Associate — renamed Feb 2026)
- **Week 12:** Capstone — full enterprise network lab + scored mock CCNA 200-301 exam
- **Stage 5 exam options:**
 - Cisco CCNA 200-301 (\$330 → ~\$140 with BBT voucher) ← primary
 - Cisco CCNA Cybersecurity (\$330 → ~\$140 with BBT voucher) - Cisco CCNA Automation (\$330 → ~\$140 with BBT voucher) - CompTIA Network+ N10-009 (\$338 — vendor-neutral alternative)
- **Cisco NetAcademy perk:** BBT's affiliation gives students up to **58% discount** on CCNA exam vouchers — \$330 → ~\$140. Highlight this prominently.

Affiliations to Show Prominently

Partner	Tracks	Benefit
Cisco NetAcademy	Track 08, Track 05 Defensive	58% exam discount on CCNA family; curriculum alignment
Hack The Box (HTB)	Track 05 Offensive + Defensive	CPTS, CWES (formerly CBBH), CDSA, CJCA, COAE exam pathways
AWS	Track 01, 02, 04	AIF-C01, MLA-C01, SAA-C03, DOP-C02, DVA-C02
Azure / Microsoft	Track 02, 04	AZ-104, AZ-400, DP-100, AI-200
Databricks	Track 01	GenAI Engineer Associate (\$200 — LLMOps cert)
Odoo	Track 03	Official Functional + Technical certifications
Google	Track 06, 07	UX Design Certificate, Digital Marketing Certificate, Ads Skillshop
CompTIA	Track 05, 08	Security+ SY0-701, CySA+ CS0-003, PenTest+ PT0-003, Network+ N10-009

CSS Classes Added for This Restructure

courses.html

- `.cc-body.has-paths` — track cards with AWS/Azure or Offensive/Defensive tabs; overrides grid to flex-column
- `.cc-path-tabs` — tab bar at top of expandable card body
- `.cc-path-tab` — individual tab button; `.active` = amber underline
- `.cc-pane` — hidden by default; `.active` = `display:grid; grid-template-columns:1fr 1fr`
- `.stage-list`, `.stage-item` — 8-stage list inside right column
- `.stage-gate` — amber pill badge for Stage 4
- `.exam-section`, `.exam-opt` — exam options container and individual option row
- `.exam-opt-free` — green colour for free exams
- `.partner-logos`, `.partner-badge` — affiliate logo row
- `.pb-cisco`, `.pb-htb`, `.pb-aws`, `.pb-azure`, `.pb-odoo`, `.pb-google`, `.pb-db` — partner badge colour variants

curriculum.html

- `.prog-stages`, `.prog-stages-head`, `.prog-stage-row` — 8-stage table
- `.psr-num`, `.psr-name`, `.psr-desc`, `.psr-tag` — row cells
- `.psr-gate` — amber pill for Stage 4 hard gate
- `.psr-go` — faint colour for normal stages
- `.curric-exam`, `.curric-exam-head`, `.curric-exam-grid` — exam section
- `.ce-opt`, `.ce-name`, `.ce-code`, `.ce-price` — individual exam option card
- `.ce-price.free` — green for free exams
- `.ce-skip` — mock exam skip note (small text, faint)
- `.curric-path-tabs`, `.curric-tab` — path variant tab bar for curriculum sections
- `.curric-pane` — hidden; `.active` = visible

JavaScript functions

```
`js // courses.html function switchPath(trackId, pane, btn) { ... }  
// curriculum.html function switchCurricPath(trackId, pane, btn) { ... } `
```

Files Map

```
` bbt_edu/ |—— index.html — homepage; 8 course cards, pipeline preview, trust bar |—— courses.html — all 8 track  
cards with accordions, path tabs, exam options |—— curriculum.html — week-by-week for all 8 tracks, path tabs, prog-  
stages, exam options |—— about.html — pipeline deep-dive, ecosystem, course grid |—— franchise.html — franchise  
model page (not modified in this sprint) |—— enroll.html — application form |—— bbt.css — single stylesheet, all  
components `
```

Track Count — Always 8

Any stat, eyebrow, heading, or CTA that references the number of tracks must say **8**. Search for stray "7" references before shipping.

```
` "8 Courses · April 2026 Cohort" "Explore 8 Courses" "View All 8 Courses in Detail" "Eight Gaps. Eight Courses."  
"Our 8 Tracks" "8 tracks built on documented market gaps" "Eight tracks. Thirty seats each." `
```

Key Business Rules

1. **Mock exam skip:** A student who passes a mock certification exam in Stage 4 (Practical Vetting) at or above the real exam pass threshold may proceed directly to Stage 6 (Internship). They do not need to pay for the vendor exam. Students who want the official credential on their CV pay for and sit the real exam in Stage 5.
2. **No retired certs:** MLS-C01 (retired March 2026), AZ-204 (retires July 31 2026), AZ-500 (retires Aug 31 2026), CBBH (renamed CWES Oct 2025) must never appear. Use the 2026 names in the table above.
3. **Cisco discount:** Always mention the ~58% exam voucher discount when displaying CCNA exam prices for Track 08 (\$330 → ~\$140).
4. **HTB affiliation:** HTB CWES was formerly called CBBH — note this in UI where helpful. HTB COAE (AI & ML Security Expert) is co-developed with Google; pricing TBA.
5. **Azure AI-200:** Replaces the retiring AZ-204. It is the "Azure AI Developer" exam. Always show this substitution note where AZ-204 used to appear.
6. **Odoo track:** Uses bigbinaryerp.com (the ERP arm) as the internship destination, not bigbinarytech.com.
7. **The 4-stage pipeline UI stays:** do not replace or restructure the Trainee → Internee → Shadow → Expert visual anywhere. The 8 sub-stages are an expansion of "Trainee", not a replacement of the pipeline.
